Home Assignment

You selected your Home Airport ('**Home**') when you completed our *Application Form*.

It's from this assigned location you must make your *first* **Cargo** *or* **Scheduled** flight. Thereafter, your assigned Home Airport doesn't factor into your flying *unless* that's what you want to do.

*If your Home does **not** have any Cargo or Scheduled flights and you desire to fly them, you must enable **Worldwide Persistence (WWP)** to fly to an airport that does have Cargo and/or Scheduled flights. Learn more about WWP **here**.*

*For Charter operations, your Home will **not** be a factor at all.*

If you wish to change your **Home**, you can do so on your own anytime – and as many times as you desire; however, be aware of the fact there **is** a fee involved **each time** you do so.

That fee will be deducted from your Ledger (**Pilot Profile > Ledger**).

As long as your balance is *greater than* the fee for the Transfer, your Home will be changed.

If your Ledger balance is *less than* the fee for the Transfer, your Home will **not** be changed..

To initiate a Home Transfer, go to **Settings** > **My Information** > **My Home** in the *Navigation Bar* of the *Crew Operations* website. Follow the prompts.

You may also click **here** to learn how to change your **Home**.
