

Events

This is the **Events** page. Here, you'll see a schedule of Company-sponsored **Events** taking place in the month indicated.

Scroll as necessary to see what's available for the month you've selected – **or** – use the sort feature if you're looking for a flight specific to an ATC Network.

The sorting options are:

- All
- PilotEdge
- VATSIM EU
- VATSIM PAC
- VATSIM US

Color Legend:

PilotEdge	
VATSIM EU	
VATSIM PAC	
VATSIM US	

The month's *current day* will be underscored in **bold red**.

Clicking the **UTC** button will display all times in UTC.

Universal Coordinated Time (UTC), a successor to Greenwich Mean Time (GMT), is the time standard used in our System. A new day begins at 00:00:00 UTC and ends at 23:59:59 UTC.

How To Bid An Event Flight

As defined **here** in bullet #3, bidding is opened **3-hours** prior to the start time of the event and closed **30 minutes** before the end time of the event. When that time has arrived, the **Bid Unavailable** button will become green and you'll be allowed to make your flight bid.

*If you **bid** a flight using Flight > Cargo, Flight > Charter or Flight > Schedule, you **will not receive** the bonus points and hours; and we will not make exceptions.*

Now that bidding is open, let's go through the process...

The type of event (*Fly-In, Fly-Out, Fly-In/Fly-Out or Specific*) will determine what your bid screen looks like. It's pretty self-explanatory; however, we'll show an example of the *Specific* event type.

1. Click the **Bid Flight** button.

2. You are now presented with the 'Bid Your Flight' screen.

Bid Your Flight X

You are placing a bid for the **Specific Airport** Event.

Here are some quick reminders of what that means:

- **Fly-In;** *you must fly into these airports.*
- **Fly-Out;** *you must fly out of these airports.*
- **Fly-In/Fly-Out;** *you must fly in or out of one of these airports.*
- **Specific;** *you must fly between these airports.*

i You do not have to be at the airport location in order to participate.

i Event flights do not change your location upon landing.

Bid Flight

1. This event has a specific airport selection – *KATL* and *KJAX*. Pick which of these you want to be your departure airport.

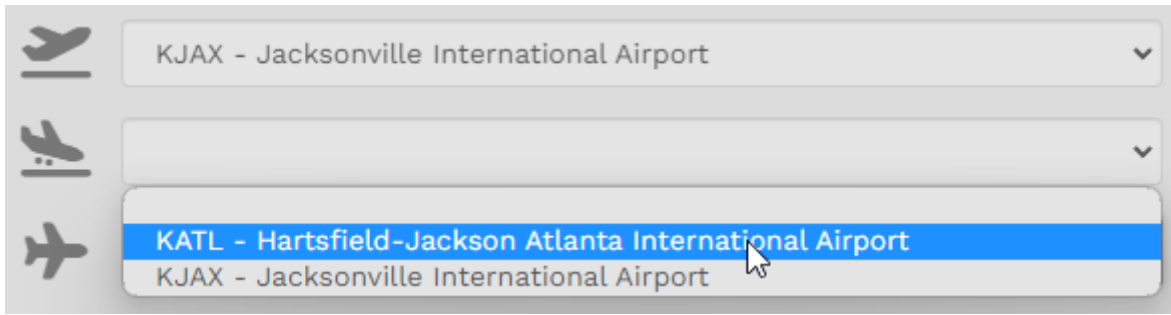

Bid Flight

KATL - Hartsfield-Jackson Atlanta International Airport

KJAX - Jacksonville International Airport

2. Pick your arrival airport. Because this event only has two (2) airports, you get one (1) choice.

You will see your departure airport in this list. The reason we provide it is that sometimes pilots want to practice area flying and returning to their departure airport while ATC is available during an event. It is OK if you pick the same departure and arrival, if available, during your participation.

- Next, you will choose the fleet you wish to pick an aircraft from.

If you wish to return and pick another fleet, click on the 'Reset Aircraft' to the right of the drop down box.

- If you happen to pick *Charter* as your fleet, you will be presented with a load option. You can choose cargo or passengers (*default.*)

- Click on "Bid Flight" and you will be taken to your **My Bids** page. There, you'll see your newly-created Event Bid.

At this point you can continue forward with smartCARS 3 or FlightTrackerXP, begin your flight and receive credit as defined in our Events Procedures **here**.

You can fly as many flights as you wish during an event window given that you can stay within the hours defined in the Events Standard Operating Procedures. You may only bid 1-flight at a time, so if you return to your Event page and you are currently in-flight, or have a bid, you will see a 'Bid Exists' button. You must either forfeit (remove) or complete that bid in order to bid a new flight.

Additional information about **Events** may be found **here**.
