

# Flights – Jumpseat

Jumpseats can be purchased to move from one airport to another for **Cargo** and **Scheduled** flights – *and* for **Charter** flights when Worldwide Persistence is **enabled**.

After clicking **Jumpseat**, the screen below opens. Your current location airport is already in the **Current Location** text box.

A summary of your Jumpseat activity appears to the right.

In the **History** section, you'll find details of all previous jumpseat purchases.

**NOTE:** *It'll be empty if none have been purchased.*

Enter the name or ICAS Code of the airport to which you'd like to move in the **Transfer To Text Box**.

After doing so, the **Distance** between the airports will be noted along with the **Price** of the ticket. Click the **Purchase Ticket** box.

## EXAMPLE:

This Pilot wishes to jumpseat from OEJN > EDDL. It will cost \$466.80 for them to do so. With \$265,043.51 in their wallet, the ticket can easily be purchased. If, however, the balance in that Pilot's Wallet had been *less than* the price of the Jumpseat, the Ticket could not have been purchased.

When jumpseating, keep *this* in mind regarding **Worldwide Persistence**:

| With Worldwide Persistence... | ... the <i>Destination Airport</i> Search Box...                             |
|-------------------------------|--|
| On   Enabled                  | will show <i>every airport</i> in our database.                              |
| Off   Disabled                | will <i>only show</i> airports for which a Cargo or Scheduled flight exists. |
