

Flights – Jumpseat

Jumpseats can be purchased to move from one airport to another for **Cargo** and **Scheduled** flights – and for **Charter** flights when Worldwide Persistence is **enabled**.

After clicking **Jumpseat**, the screen below opens. Your current location airport is already in the **Current Location** text box.

A summary of your Jumpseat activity appears to the right.

In the **History** section, you'll find details of all previous jumpseat purchases.

NOTE: *It'll be empty if none have been purchased.*

The screenshot shows the Jumpseat interface. At the top, there is a red header with the Jumpseat logo and name. Below this is a yellow banner with an information icon and the text: "Jumpseat tickets are available for purchase using earnings from completed flights." The main content area is divided into two sections. The left section is a form with two input fields: "Current Location" (containing "OEJN - Jeddah King Abdulaziz International Airport") and "Transfer To" (containing "Type Arrival Airport"). Below these fields are two columns: "Distance" and "Price". A "Purchase Ticket" button is located at the bottom of the form. The right section shows two wallet icons. The first icon is a card with the amount "\$1,859.80" and the text "SPENT ON JUMPSEATS" below it. The second icon is a wallet with the amount "\$265,043.51" and the text "IN YOUR WALLET" below it. Below the form and summary is a red header with a refresh icon and the word "History". Underneath is a table with the following data:

Date	Departure	Arrival	Cost
04 MAY 2022 16:36 UTC	EINN Shannon Airport	EGLL London Heathrow Airport	\$64.20
02 MAY 2022 01:56 UTC	TXKF Bermuda L.F. Wade International Airport	GCTS Tenerife South Airport	\$498.40

Enter the name or ICAS Code of the airport to which you'd like to move in the **Transfer To Text Box**.

After doing so, the **Distance** between the airports will be noted along with the **Price** of the ticket. Click the **Purchase Ticket** box.

EXAMPLE:

This Pilot wishes to jumpseat from OEJN > EDDL. It will cost \$466.80 for them to do so. With \$265,043.51 in their wallet, the ticket can easily be purchased. If, however, the balance in that Pilot's Wallet had been *less than* the price of the Jumpseat, the Ticket could not have been purchased.

<p>Current Location</p> <p>OEJN - Jeddah King Abdulaziz International Airport</p> <p>2334 nm Distance</p>	<p>Transfer To</p> <p>EDDL - Dusseldorf International Airport</p> <p>\$466.80 Price</p>	 <p>\$1,859.80 SPENT ON JUMPSEATS</p>	 <p>\$265,043.51 IN YOUR WALLET</p>
<p>Purchase Ticket</p>			

When jumpseating, keep *this* in mind regarding **Worldwide Persistence**:

With Worldwide Persistence...	... the <i>Destination Airport Search Box</i> ...
On Enabled	will show <i>every airport</i> in our database.
Off Disabled	will <i>only show</i> airports for which a Cargo or Scheduled flight exists.
