

# Pilot Profile – Settings >

## Favorite Aircraft

In this section, you have the ability to select your **Favorite Aircraft** from those in each of our Fleets. This comes in handy when selecting aircraft for flights. Those you designate as Favorites appear in the list of aircraft ahead of all others.

Favorite Aircraft

Choose your favorite aircrafts from the lists below. The ones that are checkmarked will appear at the top of the drop down selector on Cargo, Charter, and Scheduled flight bidding.

Cargo Operations

Charter Operations

Scheduled Operations

Save Favorite Aircraft

Click the *down chevron* of the Fleet for which you want to select favorite. We'll use the **Cargo** Fleet as an example – though the process is the same for each of them.

Check the box beside an aircraft you wish to designate as a **Favorite**.

Repeat as many times as necessary within this list of aircraft.

When done – and if desired – open the **Charter** and/or **Scheduled** Fleet aircraft listings and repeat the process.

When done, click the **Save Favorite Aircraft** button.

*If you do **not** click the **Save Favorite Aircraft**, button, your selection(s) will **not** be saved.*

To remove an aircraft from your Favorite Aircraft list, return to this section and uncheck the box.

Afterwards, click the **Save Favorite Aircraft** button.

If you do **not** click the **Save Favorite Aircraft**, button, your change(s) will **not** be saved.

### Favorite Aircraft

Choose your favorite aircrafts from the lists below. The ones that are checkmarked will appear at the top of the drop down selector on Cargo, Charter, and Scheduled flight bidding.

#### Cargo Operations

- ☒ Airbus A300F
- ☐ Airbus A300ST
- ☐ Airbus A310F
- ☐ Airbus A321 PCF
- ☐ Airbus A330-300P2F
- ☐ Airbus A340-600

This is what it looks like when you make a bid for a **Cargo** flight. The aircraft we selected as a **Favorite** – the Airbus A300F – is conveniently at the top of the list.

All other aircraft in the **Charter** and/or **Scheduled** Fleets you selected as **Favorite** will appear at the top of the list as well.

The screenshot shows a dropdown menu titled "Favorite Aircraft". The menu is open, displaying a list of aircraft models. The first item is "Airbus A300F", which is highlighted. Below it, under the heading "All Other Aircraft", are several other models: "Airbus A300ST", "Airbus A310F", "Airbus A321 PCF", "Airbus A330-300P2F", "Airbus A340-600", "BAe 146-200 QC", "BAe 146-300 QT", "Boeing 727-100QC", "Boeing 727-200F", "Boeing 737-200F", "Boeing 737-300F", "Boeing 737-700BDSF", and "Boeing 737-800BCF". The "Boeing 727-100QC" is highlighted. At the bottom of the dropdown, there are two buttons: "Book" and "Cancel".
