

Choose Any Callsign for Online Flights

In order to continue promoting the Walker Air Transport brand, we do not allow Patreon's to use their benefits in official Walker Air Transport events. If you are participating in an event, you must fly with our colors and your official Walker Air callsign.

When you are building a flight using a real-world airline or a country-specific private registration, as a Patreon, you can use that callsign when using an online ATC network. You can even specify the specific callsign you wish to use by making those selections during your bidding process. Depending on the module you use, there will be an area where you can specify the *flight number* and *callsign* for your flight.

The screenshot shows a flight bidding interface with a dark background and a red vertical bar on the left. At the top, it displays 'KJFK → CYOW'. Below this, there are several fields and buttons: a lock icon followed by 'WAT1502', a clock icon followed by '00:35', a person icon followed by '293 nm', a dropdown menu showing 'Airbus A320', a search bar with the text 'Search for an airline...' and a refresh icon, a button labeled 'CUSTOM FLIGHT NUMBER OR CALLSIGN?', two input fields labeled 'Flight Number' and 'Callsign', and a large 'Bid Flight' button at the bottom.
