

Choose Any Callsign for Online Flights

In order to continue promoting the Walker Air Transport brand, we do not allow Patreon's to use their benefits in official Walker Air Transport events. If you are participating in an event, you must fly with our colors and your official Walker Air callsign.

When you are building a flight using a real-world airline or a country-specific private registration, as a Patreon, you can use that callsign when using an online ATC network. You can even specify the specific callsign you wish to use by making those selections during your bidding process. Depending on the module you use, there will be an area where you can specify the *flight number* and *callsign* for your flight.

A screenshot of a flight bidding interface. At the top, it shows the route 'KJFK → CYOW'. Below this, there are several fields: a lock icon followed by 'WAT1502', a clock icon followed by '00:35', a person icon followed by '293 nm', and a dropdown menu showing 'Airbus A320'. Below the dropdown is a search bar with the text 'Search for an airline...' and a refresh icon. Underneath the search bar is a button labeled 'CUSTOM FLIGHT NUMBER OR CALLSIGN?'. Below this button are two input fields: 'Flight Number' and 'Callsign'. At the bottom of the interface is a large button labeled 'Bid Flight'.
