

Choose Any Callsign for Online Flights

In order to continue promoting the Walker Air Transport brand, we do not allow Patreon's to use their benefits in official Walker Air Transport events. If you are participating in an event, you must fly with our colors and your official Walker Air callsign.

When you are building a flight using a real-world airline or a country-specific private registration, as a Patreon, you can use that callsign when using an online ATC network. You can even specify the specific callsign you wish to use by making those selections during your bidding process. Depending on the module you use, there will be an area where you can specify the *flight number* and *callsign* for your flight.

The screenshot shows a flight bidding interface with the following elements:

- Origin and destination: **KJFK → CYOW**
- Registration: **WAT1502**
- Duration: **00:35**
- Distance: **293 nm**
- Aircraft type: **Airbus A320** (dropdown menu)
- Airline search: **Search for an airline...** (input field with a refresh icon)
- Custom flight information: **CUSTOM FLIGHT NUMBER OR CALLSIGN?** (input field)
- Flight Number: **Flight Number** (input field)
- Callsign: **Callsign** (input field)
- Submit button: **Bid Flight**
